

2000 Lives Set in Motion

2000 Lives Set in Motion is a celebration of the fantastic milestone of 2000 powerchairs produced and delivered by Dan Everard and his team. These chairs transformed the face of mobility and independence for disabled people, particularly for children.

**Follow the campaign at
WWW.2000LIVES.ORG**

We will organise a big celebration event in which 2000 balloons will be displayed, each representing one of the 2000 people all over the world who have benefitted directly from Dan Everard powerchairs. A book will also be published showcasing some of the many lives changed by our work.

We want everyone to be involved, so the minimum donation for each balloon is just £100. Your support will contribute to the Dragonmobility project and will impact the next 2000 lives
